

The ninth MCI group Project client meeting time and place will be decided by client.

## **Agenda**

**Chair:** Jing Han

**Secretary:** Mingen Xiao

### **1 Apologies**

None.

### **2 Presentation**

None.

#### **2.1 Functional requirements and Presentations in Last Meeting**

The team is required to display all the information (column and type) of input data on the data flow map when the move the mouse on it.

#### **2.2 Problems and solutions**

This is a new requirement for the team, but not difficult, we add more title values in the node, so that more information could be shown when the mouse rolls over the node surface.

Besides, we compiled a new function, giving the nodes of different level different sizes.

### **3 Requirements Elicitation**

3.1 As for the front-end, we need to compile a function, make a button, when the user click on it, the information of note, including column and type, can be display.

3.2 As for the back-end, we need to continue focus on extract the subquery and case statement.

### **4 Other Issues**

4.1 Question for final milestone plan.

4.2 Questions for filter.

4.3 Questions for the project requirements.

**Note:** Next MCI group Project client meeting time and place is left to client to decide.
